AFFILIATIONS AND RESEARCH VISITS

Pioneer Centre for AI, University of Copenhagen

Affiliated Researcher

Copenhagen, Denmark

2026 – Present

University of Chicago

Visiting Researcher, hosted by Anders Humlum

Chicago, USA

May 2026

Collège de France

Visiting Researcher, hosted by Philippe Aghion and Antonin Bergeaud

Paris, France

April 2026

University of Oxford

Visiting Researcher, hosted by Barbara Petrongolo and Mathias Fjællegaard Jensen

Oxford, United Kingdom

March 2026

University of Oxford

Visiting Recognised Student, hosted by Barbara Petrongolo and Mathias Fjællegaard Jensen

Oxford, United Kingdom

April – June 2025

WORKING PAPERS AND WORK IN PROGRESS

LLMs as Economic Measurement Tools: Skill Demand and Workplace Flexibility in Job Postings

- * Working paper, with Daniel Hardt. Rockwool Foundation working paper series.

Making AI Productive: Evidence from the Danish Economy

In progress

- * with Anders Humlum, Evan K. Rose and Emilie Vestergaard

The Age Bias of Innovation

In progress

- * with Kai Arvai, Antonin Bergeaud and Katja Mann

The Role of Work and Workplaces on Mental Health

In progress

- * with Barbara Petrongolo, Marco Manacorda and Mathias Fjællegaard Jensen

PRESENTATIONS

- European Economic Association Annual Congress (EEA 2026), Dublin 2026
* *The Role of Employment and Employers in Mental Health*
- Society of Labor Economists Annual Meeting (SOLE 2026), Denver May 2026
* *The Role of Employment and Employers in Mental Health*
- Economics and Innovation of AI Workshop
* *LLMs as Economic Measurement Tools: A Framework for Multi-Label Job Posting Classification*
- Economics and Innovation of AI Network Workshop, Methods Fair
* Lightning pitch *Claude Code Use Cases*: documenting replication packages, scraping conference papers, and NLP for patent analysis
- Danish Digitalization, Data Science and AI 2024 (D3A) 2024
* Participant; inaugural national conference hosted by DIREC, the Pioneer Centre for AI and DDSA
- DGPE: Danish Graduate Programme in Economics 2023
* PhD courses and annual two-day workshop

GRANTS AND AWARDS

- Deic (Danish e-Infrastructure Consortium) compute grant**, Principal Investigator 2024
* Project *LLM4Skill-Flexibility*: multi-label classification of skills and workplace flexibility in job postings using open-source LLMs on Deic Interactive HPC
- DDSA – Danish Data Science Academy Mentoring Programme**, Mentee 2023 – Present
* Supervised by Prof. Daniel Hain

TEACHING

- Copenhagen Business School** Copenhagen, Denmark
Teaching Assistant, Økonometri (BMECV1031U) and Microeconomics (BINBO1320U) Fall 2024
- The Chinese University of Hong Kong, Shenzhen** Shenzhen, China
Teaching Assistant, Microeconomics, School of Management and Economics May – July 2021

PROFESSIONAL EXPERIENCE

- Research Assistant** Sept 2022 – Aug 2024
Department of Economics, Copenhagen Business School Copenhagen, Denmark
* Patent data analysis: examined US patent data after 2000 and linked it to firm-level attributes on UCloud to study industrial innovation.
* NLP: fine-tuned a BERT model on job postings to classify skills against a predefined taxonomy; built a RAG pipeline and fine-tuned an LLM to streamline skill extraction.
- Data Science Intern** June – Aug 2023
Data Science Lab, Danmarks Statistik Copenhagen, Denmark
* Fine-tuned a pretrained Danish BERT model on grocery shopping data from Salling Group for a hierarchical classification task in PyTorch.
- Research Assistant** May – July 2021
School of Management and Economics, The Chinese University of Hong Kong, Shenzhen Shenzhen, China
* Analyzed Chinese political and demographic data from four provinces over five years in Python, tracking inter-province movements of young cohorts.

TECHNICAL SKILLS

Languages: Mandarin (native), English (fluent)
Tools: Python, R, Stata, LangChain, Claude Code, UCloud / Deic HPC, L^AT_EX, EViews, Tableau
